- 1. FORWARD/ REVERSE ROTATION CONTROL**
- 2. SOFT GRIP HANDLE**
- 3. BATTERY PACK RELEASE BUTTON**
- 4. BATTERY PACK***
- 5. ON/OFF SWITCH WITH VARIABLE SPEED CONTROL**
- 6. LED LIGHT**
- 7. COLLECT LOCKING SLEEVE**

* Not all the accessories illustrated or described are included in standard delivery.

TECHNICAL DATA

Type **WX290 WX290.1 WX290.9** (2-designation of machinery, representative of Cordless impact driver)

	WX290	WX290.1	WX290.9
Rated voltage	20V Max**		
Nominal voltage	18V		
No-load speed	0-2500/min		
Impact rate	0-3000bpm		
Max torque	107N.m		
Chuck size	1/4"(6.35mm)		
Machine weight	1.2kg		0.83kg

** Voltage measured without workload. Initial battery voltage reaches maximum of 20volts. Nominal voltage is 18volts.

NOISE DATA

A weighted sound pressure	L_{pA} : 76dB(A)
A weighted sound power	L_{wA} : 87dB(A)
K_{pA} & K_{wA}	3.0dB(A)
Wear ear protection when sound pressure is over	80dB(A)

VIBRATION INFORMATION

Vibration total values (triax vector sum) determined according to EN 60745:

Typical weighted vibration	Vibration emission value $a_h = 9.37m/s^2$
	Uncertainty $K = 1.5m/s^2$

The declared vibration total value may be used for comparing one tool with another, and may also be used in a preliminary assessment of exposure.

WARNING: The vibration emission value during actual use of the power tool can differ from the declared value depending on the ways in which the tool is used dependant on the following examples and other variations on how the tool is used:
 How the tool is used and the materials being cut or drilled.
 The tool being in good condition and well maintained
 The use the correct accessory for the tool and ensuring it is sharp and in good condition.
 The tightness of the grip on the handles and if any anti vibration accessories are used.
 And the tool is being used as intended by its design and these instructions.

This tool may cause hand-arm vibration syndrome if its use is not adequately managed.

WARNING: To be accurate, an estimation of exposure level in the actual conditions of use should also take account of all parts of the operating cycle such as the times when the tool is switched off and when it is running idle but not actually doing the job. This may significantly reduce the exposure level over the total working period.

Helping to minimise your vibration exposure risk. ALWAYS use sharp chisels, drills and blades Maintain this tool in accordance with these instructions and keep well lubricated (where appropriate)
 If the tool is to be used regularly then invest in anti vibration accessories.
 Avoid using tools in temperatures of 10°C or less
 Plan your work schedule to spread any high vibration tool use across a number of days.

ACCESSORIES

	WX290	WX290.1	WX290.9
2.0Ah Battery pack (WA3551.1)	1	1	/
16V/20V 2A charger WA3860	1	/	/
20V 400mA charger WA3760	/	1	/
Screwdriver bit (50mm PH2)	1	1	1

We recommend that you purchase your accessories from the same store that sold you the tool. Refer to the accessory packaging for further details. Store personnel can assist you and offer advice.

SCREW DRIVER AND IMPACT WRENCH SAFETY WARNING

1. **Hold power tool by insulated gripping surfaces, when performing an operation where the fastener may contact hidden wiring.** Fasteners contacting a "live" wire may make exposed metal parts of the power tool "live" and could give the operator an electric shock.

SAFETY WARNINGS FOR BATTERY PACK

- a) **Do not dismantle, open or shred cells or battery pack.**
- b) **Do not short-circuit a battery pack. Do not store battery packs haphazardly in a box or drawer where they may short-circuit each other or be short-circuited by conductive materials.** When battery pack is not in use, keep it away from other metal objects, like paper clips, coins, keys, nails, screws or other small metal objects, that can make a connection from one terminal to another. Shorting the battery terminals together may cause burns or a fire.
- c) **Do not expose battery pack to heat or fire. Avoid storage in direct sunlight.**
- d) **Do not subject battery pack to mechanical shock.**
- e) **In the event of battery leaking, do not allow the liquid to come into contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.**
- f) **Seek medical advice immediately if a cell or battery pack has been swallowed.**
- g) **Keep battery pack clean and dry.**
- h) **Wipe the battery pack terminals with a clean dry cloth if they become dirty.**
- i) **Battery pack needs to be charged before use. Always refer to this instruction and use the correct charging procedure.**
- j) **Do not maintain battery pack on charge when not in use.**
- k) **After extended periods of storage, it may be necessary to charge and discharge the battery pack several times to obtain maximum performance.**
- l) **Battery pack gives its best performance when it is operated at normal room temperature (20°C±5°C).**
- m) **When disposing of battery packs, keep battery packs of different electrochemical systems separate from each other.**
- n) **Recharge only with the charger specified by WORX. Do not use any charger other than that specifically provided for use with the equipment.** A charger that is suitable for

one type of battery pack may create a risk of fire when used with another battery pack.

- o) **Do not use any battery pack which is not designed for use with the equipment.**
- p) **Keep battery pack out of the reach of children.**
- q) **Retain the original product literature for future reference.**
- r) **Remove the battery from the equipment when not in use.**
- s) **Dispose of properly.**

SYMBOLS

	To reduce the risk of injury, user must read instruction manual
	Warning
	Wear ear protection
	Wear eye protection
	Wear dust mask
	Waste electrical products must not be disposed of with household waste. Please recycle where facilities exist. Check with your local authorities or retailer for recycling advice.
	Do not dispose of batteries, Return exhausted batteries to your local collection or recycling point
	Do not expose to rain or water
	Do not burn

xINR18/65-y: Cylindrical lithium Ion battery cells with max diameter of 18mm and max height of 65mm; “x” represents a number cells serial connected, blank if 1; “-y” represents a number of cells paralleled connected, blank if 1

OPERATING INSTRUCTIONS

NOTE: Before using the tool, read the instruction book carefully.

INTENDED USE:

This tool is intended for the fastening and loosening of bolts, nuts and various threaded fasteners. This tool is not intended for use as a drill.

ASSEMBLY AND OPERATION

ACTION	FIGURE
BEFORE OPERATION	
Removing the battery pack	See Fig A1
Charging the battery Pack	See Fig.A2
Installing the battery pack	See Fig.A3
ASSEMBLY AND ADJUSTMENT	
Inserting and Removing Bits and Socket	See Fig.B
Forward/Reverse/Lock WARNING: Never change the direction of rotation when the chuck is rotating, wait until it is stopped!	See Fig. C1,C2,C3
OPERATION	
Operating the On/Off Switch WARNING: Do not operate for long periods at low speed because excess heat will be produced internally.	See Fig. D

Light Indicator

Before operation, the light will be activated when the On/Off switch is slightly depressed, and will automatically turn off 10 seconds after the On/Off switch is released.

The tool and battery are equipped with a protection system. The Light will quickly flash (approximately once a second, and stop flashing when you release the trigger), the system will automatically cut off power to the tool to extend battery life. The tool will automatically stop during operation if the tool and/or battery are placed under one of the following conditions:

- **Overloaded:** The tool is operated in a manner that causes it to draw an abnormally high current. In this situation, release the Trigger Switch on the tool and stop the application that caused the tool to become overloaded. Then pull the Trigger Switch again to restart.
- **Overheated:** Under the condition above, if the tool does not start, the Tool and Battery are overheated. In this situation, let the Tool and Battery cool before pulling the Trigger Switch again.
- **Low battery voltage:** The remaining Battery capacity is too low and the tool will not operate. In this situation, remove and recharge the Battery.

WARNING: To turn on the light, press the On/Off switch and make sure the Forward/Reverse Rotation Control is on right/left position.

See Fig. D

MAINTENANCE

Remove the battery pack from the tool before carrying out any adjustment, servicing or maintenance.

Your power tool requires no additional lubrication or maintenance. There are no user serviceable parts in your power tool. Never use water or chemical cleaners to clean your power tool. Wipe clean with a dry cloth. Always store your power tool in a dry place. Keep the motor ventilation slots clean. Keep all working controls free of dust. Occasionally you may see sparks through the ventilation slots. This is normal and will not damage your power tool.

LITHIUM ION BATTERY

Handle with care .

Do not load or transport package if Damaged.

A fire hazard could exist.

For more information ,call:+86-512-65152811

LITHIUM-IONEN-BATTERIE

Mit Sorgfalt behandeln.

Die Verpackung nicht verladen oder transportieren, wenn diese beschädigt ist.

Es könnte Brandgefahr bestehen.

Für weitere Informationen wenden Sie sich bitte an

:+86-512-65152811

BATTERIE LITHIUM-ION

À manipuler avec précaution.

Ne chargez pas ou ne transportez pas le colis en cas de dommages.

Existence possible d'un risque d'incendie

Pour plus d'informations, veuillez appeler le :+86-

512-65152811

BATTERIA AGLI IONI DI LITIO

Maneggiare con cautela.

Non caricare o trasportare il pacco batteria se danneggiato.

Sussiste il pericolo di incendio.

Per ulteriori informazioni, chiamare il numero :+86-512-65152811

BATERÍA DE IONES DE LITIO

Manipular con mucho cuidado.

No cargar ni mover si está dañada.

Podría producirse un incendio.

Para obtener más información, llamar al :+86-512-65152811

LITHIUM-ION-ACCU

Voorzichtig behandelen.

Beschadigde accu niet opladen of transporteren.

Brandgevaar.

Bel voor meer informatie :+86-512-65152811

AKUMULATOR LITOWO-JONOWY

Zachować ostrożność podczas obsługi.

Nie ładować ani transportować przesyłki w razie uszkodzenia.

Może wystąpić zagrożenie życia.

Więcej informacji można uzyskać dzwoniąc pod numer

:+86-512-65152811

LÍTIUM-ION AKKUMULÁTOR

Bánjon vele óvatosan.

A sérült csomagot ne helyezze be és ne szállítsa.

Tűzveszély állhat fenn.

További információért hívja:+86-512-65152811

ACUMULATOR LITIU-ION

Manipulați cu grijă. În caz de deteriorare a ambalajului de transport, nu solicitați și nu transportați.

Apariție pericol de incendiu.

Informații detaliate puteți obține la numărul de telefon

:+86-512-65152811

LITHIUM-IONTOVÝ AKUMULÁTOR

Manipulujte s opatrností.

V případě poškození přepravního obalu nezatěžujte ani nepřevázejte.

Výskyt nebezpečí požáru.

Podrobnější informace získáte na telefonním čísle

:+86-512-65152811

LITHIUM-IONTOVÝ AKUMULÁTOR

Pri manipulácii buďte veľmi opatrní.

V prípade poškodenia prepravného obalu nezaťažujte ani neprevádzajte.

Výskyt nebezpečenstva požiaru.

Podrobnejšie informácie získate na telefónnom čísle

:+86-512-65152811

PILHA DE LÍTIO-IÃO

Manusear com cuidado.

Não carregar ou transportar a embalagem se danificada.

Pode existir risco de incêndio.

Para mais informações ligar :+86-512-65152811

LITIJONBATTERI

Hanteras varsamt.

Ladda eller transportera inte förpackningen om den är skadad.

En brandrisk kan finnas.

För mer information, ring :+86-512-65152811

LITIJEV AKUMULATOR

Ravnajte pazljivo.

Če je akumulator poškodovan, ga ne vstavljajte niti ne prevažajte.

Pri tem lahko pride do požara.

Za več informacij, pokličite :+86-512-65152811
